

My husband and I own a century old home and had decided a few years ago that it was time to do some major renovations to our main level.

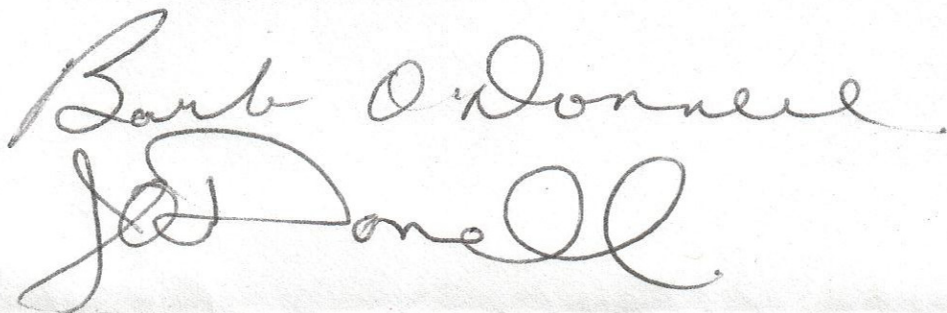

We hired RAD Home Improvements and Drywall to do our renovation and are extremely pleased with the final results. The first renovation was the kitchen which was totally gutted down to the bare walls. With the exception of choosing the kitchen cabinets, counter top and paint color for the kitchen and back foyer, Dale Milligan and his crew looked after all the details of hiring the sub-trades for plumbing and electrical work and the renovations were done in a timely fashion with little disruption to our day-to-day routine in our home. Living in your home while major renovations are in process can be a little frustrating, but thanks to Dale and his crew and the great rapport we had with them the reno proceeded smoothly.

The end result is amazing and we love spending time in our new kitchen.

Approximately a year later we decided to renovate our living, dining and laundry room and also hired RAD to do this renovation for us. Along the way Dale and his crew had some suggestions that we had not considered (i.e. crown mouldings) and we are delighted with the final outcome and the options they proposed.

We would not hesitate to give RAD Home Improvements a first rate recommendation for their quality, efficiency and overall team performance.

Jack and Barb O'Donnell.

The image shows two handwritten signatures in dark ink. The top signature is 'Barb O'Donnell' written in a cursive, flowing style. Below it is the signature 'Jack O'Donnell', also in cursive, with a large, stylized 'J' and 'O'.
